

CLEARSCOPE

A D A P T O R

ENDOSCOPIC IMAGING FOR THE MOBILE WORLD

The ClearSCOPE endoscope adaptor connects your smartphone to almost any standard endoscope. Designed to free medical staff from the cost and annoyance of being tied to their video tower. The ClearSCOPE adaptor enables high quality imaging for sharing results with patients, residents and other physicians.

CUTTING EDGE VIDEO CAPTURE AT A FRACTION OF THE COST

- **Compatibility:** works with 32mm endoscopes and almost all smartphones.
- **Mobility:** capture video anywhere - leave the tower behind.
- **Savings:** quality image and video capture at a fraction of the cost.
- **Patient care:** share with patients to help communicate diagnosis.
- **Resident education:** superior teaching visual aid, interns can email for comment.
- **Consultation with other physicians:** send instantly to other physicians.
- **Streaming and sharing:** stream to monitor, email or text to colleagues.
- **High quality imaging:** full HD recording, 8x optical magnification.
- **Ease-of-Use:** simple, quick set up, no training required.
- **Approved:** class 1 Medical device in Canada, USA & EU.
