

Technically Speaking

As a hybrid facial, Perk™ gives providers and clients the best of both worlds, combining efficiency with effective results. Also known as a liquid exfoliation, Perk™ uses patented roller-flex technology to loosen dirt, oil and dead skin cells through gentle exfoliation while flushing and suctioning away those impurities.

hybrid /'hī,brid/
adjective

1 Combining a facial treatment with take-home product. Perk™ is the world's first hybrid facial.

TREATMENT PERKS:

5 vacuum level settings for your clients' comfort level.

2 types of exfoliation tips: Clear tip for cleansing & blue tip for nutrient application.

Waste container on the back of the unit displays skin's impurities after treatment.

Various treatment options: face, eyes, and lips.

Treatment vial turns into take-home product for client to use for home-use applications.
